Golding Projects

September 2009

During our extension not once did we feel like we had to move. Golding Projects made sure we were comfortable in our own home with the children.

The work was of a high standard and Terry communicated with us all the way letting us know exactly what was happening and what to expect next.

The Golding Projects team and the service was very professional . They kept everything as clean as possible and didn't cause my family any distress.

We are very happy with our extension which was completed before its time and we can sincerely recommend them for any building project.

Yours sincerely

Chris & Alexandra Maltezos
